Summary

I consider myself a very responsible and innovative person and I'm always trying to improve myself and my work.

I'm always trying to learn new programming tools and languages and be aware of which areas are rising the most in IT.

I'm very comfortable at working in teams with a great number of elements. I had the experience of leading a team of 35 people, including software developers, designers and multimedia collaborators, working as CEO in a company created for LGP (seminar at FEUP with real clients).

My IT base knowledge is very diverse and includes areas such that web and mobile development, software engineer, information systems, AI and multi-agent systems, among others.
